

Thuraya X5-Touch

The world's smartest satellite phone.

This is Thuraya X5-Touch

The world's first Android-based satellite & GSM phone. With an "Always-On" SAT and GSM mode, you can simultaneously make and receive calls on both networks, offering unparalleled flexibility-benefits when frequently moving in and out of terrestrial coverage. The Thuraya X5-Touch offers highly reliable walk-and-talk capabilities and is equipped with the most powerful battery in the industry, offering 11 hours of talk time, and a standby time of 100 hours, keeping you always in touch with teams on the ground and HQ.

Designed to be the most ruggedized phone in the industry, the Thuraya X5-Touch has a 5.2" glare-resistant, Gorilla® glass screen, and full dust and water protection. With a pre-installed range of Google applications and the Android Operating System, you can completely personalize your phone to suit your needs. The addition of a dedicated SOS button, and advanced navigation capabilities, means you can send your location to predefined numbers. So, no matter where your operations or mission deployments take you, your safety is in the palm of your hands.

Product Features

Fully ruggedized

The most rugged phone in the industry with IP67 standards and compliance with MIL 810 G/F. The phone is fully dust & water protected, tested to withstand shock, vibration, and extreme temperature.

Communicate seamlessly in dual-mode, with dual SIM.

The Thuraya X5-Touch works over Thuraya's L-band satellite network as well as GSM 2G/3G/4G/LTE networks. Equipped with two nano-SIM card slots for complete flexibility and choice.

SAT and GSM "Always On."

Make and receive calls simultaneously on both SAT & GSM networks. For a true dual experience, you can receive calls on your GSM number even when on an active satellite call and vice versa.

Advanced navigation capabilities.

Use built-in GPS, BeiDou, and Glonass systems to send your current location details to pre-defined numbers via SMS/ email, based on pre-set time intervals, distance traveled, or when moving inside or outside your pre-set geofence.

Most powerful battery.

Equipped with the most powerful battery in the industry, the X5-Touch has a talk-time of up to 11 hours and a standby time of up to 100 hours enabling reliable communications for an extended period of time.

Dedicated SOS button

An easy-to-use SOS button. Even when the phone is switched off, simply press and hold the SOS button for 3 seconds, which starts the handset and triggers the SOS call (and/or SMS) to any pre-programmed number.

A truly seamless,
dual connectivity experience.

Make the most out of your camera

Front and rear cameras to take photos and videos. Enjoy features like built-in flash, panorama mode, face detection, and many more.

Expand your phone memory

With a dedicated Micro-SD slot, expand your phone memory up to 32GB and make sure you don't run out of memory when you need it.

Connect any way you want

The phone comes with Wi-Fi, Bluetooth, and NFC connectivity.

Walk-and-Talk

Reliable and efficient walk-and-talk communications due to the combination of Thuraya's high-performance satellite network and an omnidirectional antenna designed to ensure enhanced mobility.

Bring Your Own App (BYOA)

The Android platform on the X5-Touch allows every customer and every developer to personalize the phone to their needs and any customization that Android provides. The phone also integrates easily with wearables.
