

## Thuraya XT-PRO

The world's most advanced satellite phone.

### This is Thuraya XT-PRO

When it comes to exploring the far reaches of the globe, most trekkers have very sporadic pit-stops in populated areas with power outlets. This is where the Thuraya XT-PRO makes for the best travel companion. With a ruggedized design and the longest battery life on any satellite phone, communicating with Thuraya XT-PRO is stress-free! Built with GPS, Beidou, and Glonass capabilities, and with one of the biggest glare-resistant screens in the industry, the XT-PRO offers optimum visibility, no matter where your adventures take you.

Stay on-top-of all your social and business updates with the ability to make calls and send messages in satellite mode, and access the internet for emails and web-browsing. With the dedicated SOS button in times of distress and the XT-PRO's compatibility with several accessories such as indoor enablers and docking kits, you're free to adventure safely and with peace of mind!

### Product Features

#### Selectable Navigation Systems

With XT-PRO, you can choose your preferred navigation system and select between GPS, BeiDou, and Glonass for the highest accuracy and added security in every region.

#### Longest talk-time on any satellite phone

Thuraya's XT-PRO offers a talk-time of up to 9 hours and has a standby time of up to 100 hours providing you with reliable and robust communications wherever you need it.

#### Glare resistant Gorilla® glass display

The XT-PRO satellite phone is designed for the harshest of environments. It is built with toughened glass and with a customized outdoor display for easy visibility even in direct sunlight.

#### Easy to use, Dedicated SOS button

The SOS button can be used even when the satellite phone is switched off. Press and hold the SOS button for 3 seconds to start the phone and send an alert (a call and/or SMS) to any pre-programmed number.

#### Compact and rugged design

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shockproof.

#### Calls, SMS, fax, and internet connectivity

Make calls, send SMS and fax messages. You can also connect your laptop or PC to access the internet in satellite mode whenever terrestrial networks are unavailable.

**Taking the stress out  
of your travels.**

**Supported by the most robust and powerful satellite network**

The advanced omnidirectional antenna of the XT-PRO ensures an uninterrupted signal when on-the-move. Receive call notifications even if your satellite signal is too weak to receive the call itself. This is very useful when the phone is in your pocket with the antenna stowed.

**Additional features**

For convenience, we've added a speakerphone, an address book, alarms, a calculator, a calendar, call logs, conference calls, contact groups, speed dialing, a stopwatch, world times, and much more.

**Product Specifications**

Size (phone body)	128 x 53 x 27 mm
