

Thuraya XT- PRO

The world's most advanced satellite phone.

This is Thuraya XT-PRO

The world's first and most advanced satellite phone with built-in GPS, for real flexibility whilst conducting your business operations. The XT-PRO has a 5.2" glare-resistant, Gorilla® glass screen-display, with a built-in brightness sensor to auto adjust the display backlight. So, no matter where your rural and remote business operations take you, you'll have optimum flexibility and visibility.

The Thuraya XT-PRO has one of the longest talk times on any satellite phone, along with the capability to send messages, which means you can rely on uninterrupted connectivity and constant access to your corporate network. You'll have access to data connection for emails and web-browsing, so you can ensure your business operations are running at peak performance, no matter how remote the location. The XT-PRO prioritizes your safety, with Thuraya's comprehensive satellite network and a dedicated SOS button keeping your phone tracked at all times, so you can focus on your business operations safely and securely.

Product Features

Selectable Navigation Systems

With XT-PRO, you can choose your preferred navigation system and select between GPS, BeiDou, and Glonass for the highest accuracy and added security in every region.

Longest talk-time on any satellite phone

Thuraya's XT-PRO offers a talk-time of up to 9 hours and has a standby time of up to 100 hours providing you with reliable and robust communications wherever you need it.

Glare resistant Gorilla® glass display

The XT-PRO satellite phone is designed for the harshest of environments. It is built with toughened glass and with a customized outdoor display for easy visibility even in direct sunlight.

Easy to use, Dedicated SOS button

The SOS button can be used even when the satellite phone is switched off. Press and hold the SOS button for 3 seconds to start the phone and send an alert (a call and/or SMS) to any pre-programmed number.

Compact and rugged design

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shockproof.

Calls, SMS, fax, and internet connectivity

Make calls, send SMS and fax messages. You can also connect your laptop or PC to access the internet in satellite mode whenever terrestrial networks are unavailable.

Ruggedized and compatible
with several accessories.

Supported by the most robust and powerful satellite network

The advanced omnidirectional antenna of the XT-PRO ensures an uninterrupted signal when on-the-move. Receive call notifications even if your satellite signal is too weak to receive the call itself. This is very useful when the phone is in your pocket with the antenna stowed.

Additional features

For convenience, we've added a speakerphone, an address book, alarms, a calculator, a calendar, call logs, conference calls, contact groups, speed dialing, a stopwatch, world times, and much more.
