# Thuraya W= Your remote WiFi hotspot.

#### This is Thuraya WE

WE understand that in an emergency, rapid response and high-speed connection are a priority. Presenting the Thuraya WE, a satellite IP device allowing you to switch between Satellite and LTE hotspot, with just the click of a button, so you can easily gain access to vital information and communicate with relief teams. Transform any area into a WiFi hotspot, with circuit-switched voice and GSM data speeds, and the capability of connecting up to 10 smart devices within a 30m radius, ideal for when you need to quickly coordinate your humanitarian operations.

Disaster can strike anywhere, even beyond the reach of terrestrial communications, which is why the Thuraya WE helps to extend your data coverage by allowing you to move in and out of terrestrial network areas with ease. The Thuraya WE app also allows you to transform your smart device into a satellite phone and access your contacts, so you can easily stay in contact with colleagues, hospitals, and affected communities. Weighing just 1kg and providing protection from dust and water splash, the Thuraya WE is a vital tool for relief teams and emergency services.

### **Product Features**

#### Single SIM, dual mode hotspot

The only hotspot in the market offering dual-mode capability. It extends data coverage by offering Satellite & LTE broadband data services allowing you to move in and out of terrestrial coverage areas with ease.

#### Manual or auto-network selection

Flexibly switch between networks by setting up the auto-network switching function on the web interface or smartphone app. The hotspot will automatically switch from your default network to the other network once you're out of coverage.

#### Calls and text messages in Satellite Mode

The Thuraya WE app transforms your smart device into a satellite phone, it enables you to access your existing phone's contact list to make satellite calls and SMS's when satellite mode is selected.

#### Easy to use interface

To fully control the hotspot, Thuraya has developed a user-friendly interface that can be accessed either through the web or through a mobile app compatible with iOS and Android systems.

#### **Unified communications**

Transform any area into a Wi-Fi hotspot, connect all your devices and applications, and enjoy the internet by connecting up to 10 smart devices to the Thuraya WE Wi-Fi hotspot, within a radius of 30 meters or more

#### Lightweight and durable

Weighing 1 kg only, Thuraya WE is compact light, and portable. It holds the globally recognized Ingress Protection Rating IP54 which provides protection from dust & water spray to withstand harsh environments.
