

## Thuraya XT-PRO

The world's most advanced satellite phone.

### This is Thuraya XT-PRO

Sail across the world's oceans with the most advanced satellite phone built with GPS, Beidou, and Glonass capabilities. The large glare-resistant, Gorilla® glass screen also includes a brightness sensor that automatically adjusts the display. This ensures optimal visibility in bright sunlight, best suited to navigate harsh environments and turbulent waters. A ruggedized design and compatibility with several accessories makes the XT-PRO ideal for remote exploration across the sea, construction of offshore facilities, drilling wells, and laying long-distance pipelines.

With the longest talk-time on any satellite phone, the ability to send SMS, and connectivity to the internet, you will have access to emails, web browsing, weather updates, operational data, and satellite navigation charts, to ensure your operations running at peak performance. For those who find themselves lost at sea, or in any type of distress, the XT-PRO offers an easy-to-access SOS button that can be used even when the phone is switched off.

### Product Features

#### Selectable Navigation Systems

With XT-PRO, you can choose your preferred navigation system and select between GPS, BeiDou, and Glonass for the highest accuracy and added security in every region.

#### Longest talk-time on any satellite phone

Thuraya's XT-PRO offers a talk-time of up to 9 hours and has a standby time of up to 100 hours providing you with reliable and robust communications wherever you need it.

#### Glare resistant Gorilla® glass display

The XT-PRO satellite phone is designed for the harshest of environments. It is built with toughened glass and with a customized outdoor display for easy visibility even in direct sunlight.

#### Easy to use, Dedicated SOS button

The SOS button can be used even when the satellite phone is switched off. Press and hold the SOS button for 3 seconds to start the phone and send an alert (a call and/or SMS) to any pre-programmed number.

#### Compact and rugged design

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shockproof.

#### Calls, SMS, fax, and internet connectivity

Make calls, send SMS and fax messages. You can also connect your laptop or PC to access the internet in satellite mode whenever terrestrial networks are unavailable.

Your professional  
travel companion at sea.

**Supported by the most robust and powerful satellite network**

The advanced omnidirectional antenna of the XT-PRO ensures an uninterrupted signal when on-the-move. Receive call notifications even if your satellite signal is too weak to receive the call itself. This is very useful when the phone is in your pocket with the antenna stowed.

**Additional features**

For convenience, we've added a speakerphone, an address book, alarms, a calculator, a calendar, call logs, conference calls, contact groups, speed dialing, a stopwatch, world times, and much more.

**Product Specifications**

|                             |  |
|-----------------------------|--|
| Size (phone body)           | 128 x 53 x 27 mm   |
