

Thuraya XT-PRO

The world's most advanced satellite phone.

The Thuraya XT-PRO is the ultimate satellite phone for professionals and adventurers, offering reliable communication in remote environments. Its rugged design, long battery life, and largest glare-resistant screen in its class ensure optimal performance. Supporting GPS, Beidou, and Glonass for robust navigation, the XT-PRO allows you to make calls, send messages, and use satellite data. A dedicated SOS button provides additional safety with advanced tracking features.

Ideal for sectors like energy, oil, enterprise, government, and leisure activities, the XT-PRO's durable build and compatibility with accessories make it versatile for various applications. Thuraya's extensive satellite network ensures connectivity in remote areas, while customizable price packages offer cost-effective solutions for different needs. Combining ease of use with reliability, the XT-PRO is perfect for maintaining communication in any setting.

Product Features

Selectable Navigation Systems

With XT-PRO, you can choose your preferred navigation system and select between GPS, BeiDou, and Glonass for the highest accuracy and added security in every region.

Longest Talk-time On Any Satellite Phone

Thuraya's XT-PRO offers a talk-time of up to 9 hours and has a standby time of up to 100 hours providing you with reliable and robust communications wherever you need it.

Glare Resistant Gorilla® Glass Display

The XT-PRO satellite phone is designed for the harshest of environments. It is built with toughened glass and with a customized outdoor display for easy visibility even in direct sunlight.

Easy to Use, Dedicated SOS Button

The SOS button can be used even when the satellite phone is switched off. Press and hold the SOS button for 3 seconds to start the phone and send an alert (a call and/or SMS) to any pre-programmed number.

Compact and Rugged Design

Small enough to fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shockproof.

Calls, SMS, Fax, and Internet Connectivity

Make calls, send SMS and fax messages. You can also connect your laptop or PC to access the internet in satellite mode whenever terrestrial networks are unavailable.

Ruggedized and Compatible with Several Accessories

Supported by the Most Robust and Powerful Satellite Network

The advanced omnidirectional antenna of the XT-PRO ensures an uninterrupted signal when on-the-move. Receive call notifications even if your satellite signal is too weak to receive the call itself. This is very useful when the phone is in your pocket with the antenna stowed.

Additional Features

For convenience, we've added a speakerphone, an address book, alarms, a calculator, a calendar, call logs, conference calls, contact groups, speed dialing, a stopwatch, world times, and much more..
